DESCRIPTION:

The NASA Space Center is located on the very shore of the Atlantic Ocean. In the space museum we will get acquainted with the history of space exploration from Cape Canaveral, which began more than 50 years ago. The IMAX cinema will allow you to see the real missions of NASA astronauts in 3D space. The attraction "Shuttle Launch Experience" accurately conveys the sensations of astronauts during the take-off of the space shuttle. On the stimulator, tourists board on a certain passenger cabin, arranged in the cargo compartment of the shuttle. Countdown, and the capsule with tourists leans back strongly, imitating the overload of the start. From the rumbling and vibration trembling cheeks. The illusion of the flight is enhanced by the view from the "window" - the blue sky, and then the earth floating among the stars. Weightlessness.

The building of the vertical assembly of missiles, the Flight Control Center.

A very interesting place to visit with children: a bus tour with a tour of the launch pad of the NASA Research Center.

And if you're lucky, you can witness the launch of missiles from giant launching sites.
