DESCRIPTION:

Congratulations! Paying \$ 350 you enter the club of travelers and get a club loan of \$ 200.

Members of the club of travelers take an active part in the development of the club and make monthly contributions of \$ 100, which become after paying your club loan at double the size. Every time you pay \$ 100, you get a club loan of \$ 200 and you save the necessary amount for the tour or cruise you have chosen, you can pay it with this loan, i.e. 50% less than you paid monthly.

Thus, you will receive discounts of 50% on all tours and cruises presented by Universe Travel.

It is important to know! You can not go on a trip earlier than you have accumulated all the necessary amount, only then you can use the doubled loan you accumulated for the tour or cruise you have chosen and go on a trip at any time. In this case only monthly installments of \$ 100 are considered to be your doubled club loan. If you want to go on a \$ 1200 tour, you need to make 6 months of contributions for \$ 100, then you have to accumulate a club loan of exactly \$ 1200 for 6 months, taking into account the first installment in the first month.

The principle of mutual benefit between the company and the club members is simple: the participants contribute to the club by their contributions and create a savings fund that allows the company to book group tours, cabins and hotels at reduced prices in advance, which gives you the opportunity to receive discounts on tours and cruises at a rate of 50% of the cost . So the company increases the base of its clients, accumulates funds and the number of tourists for sales and discounts for the company, and all members of the club get their travels 2 times cheaper for this, both of them are profitable and convenient.

Membership in the club can not be transferred to other persons. Contributions can not be returned, can only be used to pay for tours and cruises at least 6 months in advance. Accumulated doubled credit can be paid only for cruises and tours presented by Universe Travel and its official partners, represented on the company's website. If within 6 months a member of the club misses one or several monthly membership fee payments of \$ 100, then in these months he does not accrue and doubled the loan. After using the accumulated loan, you

can renew membership in the club, only after making the first membership fee of \$ 350.
