DESCRIPTION:

The natural park "Rainbow Springs" is located north of Tampa and the beaches of St. Petersburg and Clearwater in a few dozen miles. Crystal-clear with a stunning color of water rivers with picturesque beaches and an unusual phenomenon for Florida, waterfalls will not leave anyone indifferent. Roderns feed the river, it is here it takes its origin. The water temperature is 23-24 degrees

One-day tour programm

We will visit the magnificent park with waterfalls, tennis alleys.

We will enjoy a boat trip on the river by canoe or kayak, and watch in the clear water for a variety of fish and water inhabitants, and on the shores of the wild nature.

After a water journey, you can enjoy a swim in the river in a specially equipped place. On the bank of the river downstream there is a cozy restaurant where we will have dinner after a long day.

The way back will partially pass along the secondary roads of the Florida outback with the ranch and the farmers' gardens, you will be able to discover another Florida.
