Many Americans consider it their duty to visit this sacred place, where a visit to the Pearl Harbor naval base includes a detailed story from a guide, a museum and souvenir shop, a boat ride to the sunken battleship Arizona Memorial (if desired, the memorial can be replaced by visiting the battleship "Missouri")*.

You will also take a walk through the historical center of Honolulu, see the only royal palace in the United States, amazingly large trees, monuments to King Kamehameha and Queen Liliokalani, the Supreme Court building, the Hawaii State Capitol, the governor's residence and many other attractions of Honolulu

Return to the hotel at 16.00. Free time

9am. Sightseeing tour of the island and transfer to the port. Boarding the ship

Day 5

Kailua Kona(Hawaii)

Kona is known to coffee lovers as one of the sources of the world's finest coffee beans. Walking along the Royal Steps, part of Alii Drive that runs along the coastline, gets your heart racing. If you enjoy looking at the night sky, enjoy watching the stars above the summit of Mauna Kea. Waterfalls, volcanoes and soft black sand are just some of the attractions that make Kailua a unique destination. Shake your hips in a hula dance at an outdoor festival or learn about the island's history at Kamakahonu

Day 6

Maui (Hawaii)

Where do you think some of the most wonderful and amazingly beautiful beaches are located? Of course, this is Hawaii, namely Maui - one of the most amazing islands in the Pacific Ocean! When you get there, you are immediately captivated by the unusual nature, local attractions, and culture of this mysterious Hawaiian island. There are about thirty beaches in total on Maui, scattered in different parts of the island. In addition to the beaches, there are many interesting places that are associated with the culture of this island. These are the Sugar Museum, the Bailey House Museum, Kihei - Hawaiian Space Center, the Wohlers Village Museum, the Hana Coast Gallery and others.

Day 7

Maui(HAWAII)

A special place in Maui is occupied by parks and gardens, which are spread throughout the island. The most famous is Halikala National Park, which is

located in the highest part of the island. It offers a beautiful view of the entire island and surrounding areas. Highest point: 10,023 feet. You should also visit Valley State Park, Kula Botanical Garden, Maui Garden of Eden. These places are truly unforgettable!

Day 8-12

At sea. Vacation on the ship

Day 13

Vancouver (British Columbia)/arrival

City tour. Transfer to the hotel. Accommodation

Vancouver is rightfully considered one of the most comfortable places in the world, not only due to its high standard of living, but also to its picturesque location. There is a huge film studio here, which is surpassed only by Hollywood in terms of the number of films and television programs produced. In addition to the film studio, you should definitely check out the famous Stanley Park in Vancouver. This is a huge green oasis right in the center, the area of which is larger than even Hyde Park in New York.

For a bird's eye view of the city, climb to the top of the Harbor Center. The elevators in the building are transparent, so you can take dozens of beautiful pictures along the way to a height of 147 meters. When you get hungry, stop by the fashionable restaurant located right on the observation deck. If you're lucky, you'll be offered a table by the window, which offers a magnificent panorama of the city.

In addition to the metro, which is fully automated in the city, it is convenient to move around Vancouver by seaplane. A real hydroport has been built in the city for the huge number of these floating aircraft. Swimming and sunbathers should definitely visit Kits Pool, which is the size of three Olympic swimming pools. The water in it is salty, and the temperature, regardless of the weather, is always maintained at least 25 ° C.
